Thomas DURIEUX

Software Developer

8 rue Jean Sans Peur
59800 Lille
France
+33 6 65 79 90 62
durieuxthomas@gmail.com
Belgian, born on 31st January 1991

Education

2013 – 2015   Master in Information and Communications Technology at University **Lille1**, Lille, France

2010 – 2013   Graduated (Cum Laude) in Information and Communications Technology at **Institut Paul Lambin**, Haute Ecole Léonard de Vinci associated to UCL, Brussels, Belgium
- Erasmus Exchange program at the University of Luxembourg (Sept 2012 – Feb 2013), English Teaching language.
- Industrial entrepreneurship at Microsoft Innovation Center, Mons, Belgium (March 2013 – May 2013)

2009 – 2010   **Ecole Polytechnique de Louvain**, UCL, Louvain-la-Neuve, Belgium
1st Bachelor in Engineering

Computing

Software   MS Office, Photoshop, NetBeans, Eclipse, Virtual Studio
Programming   Good knowledge of Java, Python, C, Bash, PHP, SQL, JavaScript, HTML, CSS
Basic knowledge of C#, Scala, Go

Experience

2014   – **Cern**, Geneva, Switzerland (www.cern.ch)
Summer student: Python developer
I developed a set of tool used to detect misconfigured server for the security team of the CERN.
– **\BlueLaTex**, (github.com/gnieh/bluelatex)
Frontend developer
I developed the new UI interface using the MVC framework Angular.js. \BlueLatex is real-time collaborative LaTeX editor online.

2013   – **Aproove**, Mons, Belgium (www.aproove.com)
PHP, HTML, JavaScript and CSS developer
I developed a new backend system for managing multiple instances of Aproove product in a very tight schedule. This system allows creating databases, exploring file system and creating instance of Aproove on multiple hosts. Its objective is to create a distributed system.

2012   – **EMAKINA**, Brussels, Belgium (www.emakina.com)
Student job: JavaScript and HTML developer
I had to continue and to correct JavaScript development in "jobs" section of ING Belgium. I interacted effectively with team to meet the tight dead lines and precise requirement from the client. I was the only specialist of the team on this technology and the project manager gives me his entire confidence on the technical aspects.
– **Institut Paul Lambin**, Brussels
Tutor: provide support to first year students

2011   – **EMAKINA**, Brussels, Belgium (www.emakina.com)
Student job, developer
I tested Facebook applications on multiple systems
